

## My Card Rules – Debit Card Management

### Manage Debit Cards

Use the Card Management option with the KS Bank Mobile app to perform several actions related to your debit cards. These actions include:

- Viewing a card status
- Activating a card
- Reordering a card
- Suspending a card
- Reporting a card lost or stolen
- Setting up alerts and protection
- Setting travel alerts

New with the MyCardRules integration into Card Management through your KS Bank Mobile app, the following actions can be taken:

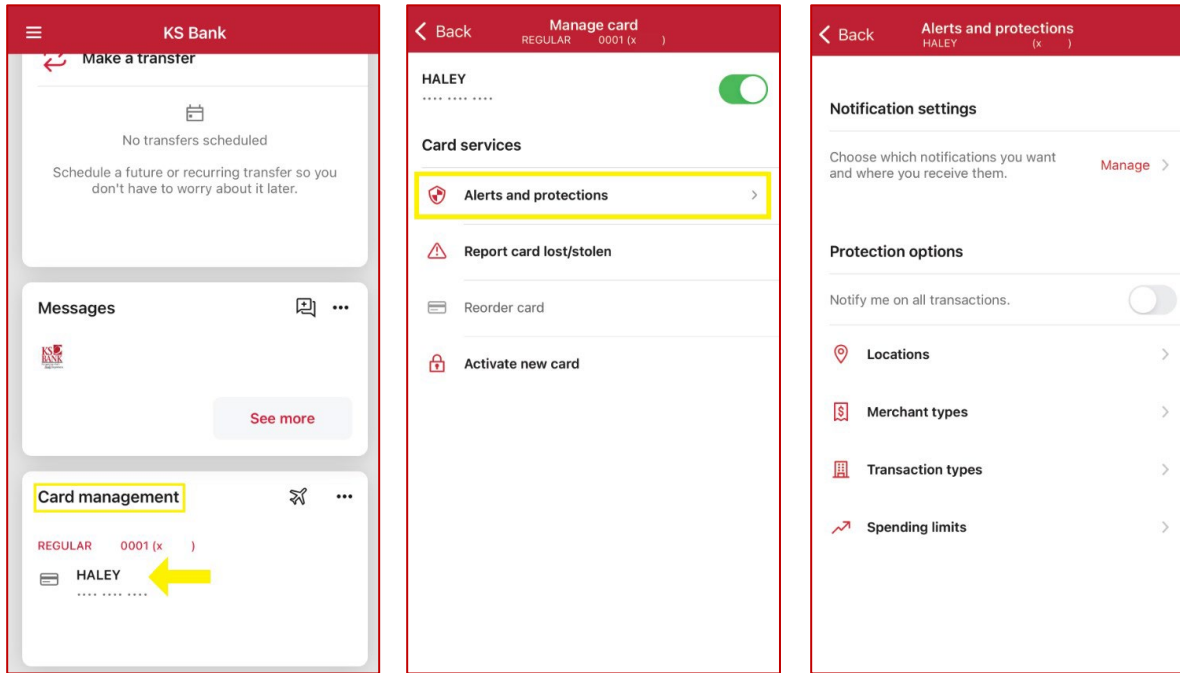

- **Access Alerts and Protection**
  - *Notification Settings* – Choose which notification method you want (email or phone)
  - The ability to be notified for all transactions by turning on the Protection Options feature
  - *Location* – Control where your card can be used
  - *Merchant Types* – Manage what types of merchants are allowed
  - *Transaction Types* – Manage what types of transactions are allowed
  - *Spending Limits* – Control spending through limits and thresholds

### Managing Card Alerts and Protection

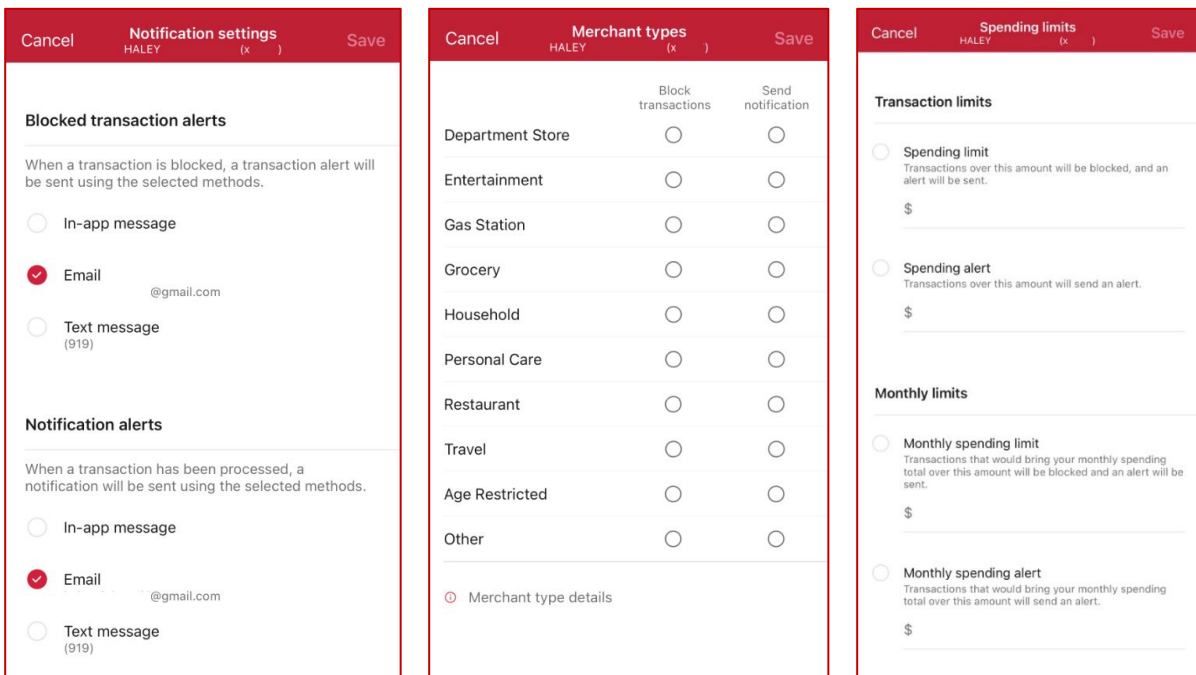

On a selected card’s Card Management screen, you can personalize the card’s Alerts and Protections to improve your card security and spending awareness.

1. From the dashboard, locate the Card Management tile.
2. Select the card you would like to manage.
3. Select the Alerts and Protections Option
4. On the Alerts and Protections screen, select your preferred options.

Blocking will stop in person card usage. Online transactions will still be possible.		

Work with **Notification Settings and Protection Options** to improve your card security and spending awareness. Manage your **Notification Settings** by selecting to receive either Email, Text, or In-App message notifications for **Blocked Transaction Alerts and other Notification Alerts**. To be notified on all transactions, select the toggle to turn on the **Notify me on All Transactions** option in the **Protection Options** section.
